Virtual directory trees

	Internal and external stores	Internal and external stores
Store level	 <p>Internal External</p>	 <p>Internal External</p>

	Domains	Domains
Home level	 <p>Audio Contacts Documents Pictures Videos ...</p>	 <p>Audio Contacts Documents Pictures Videos ...</p>

	Attribute names	Not present
Domain level	 <p>Subfolders for the most important attributes of the domain's file formats</p>	Files are (optionally) grouped in regard to the attribute selected for sorting. Displaying attributes as subfolders is thus neither required nor supported.

	Attribute values	Attribute values (optional—grouping only)
Attribute level	 <p>Mandatory subfolders for all attribute values, including NULL</p>	Subfolders optional, files with unique attribute value or NULL may be present on this level

File level	Individual files	Individual files
